

Saurabh Kumar Gupta

Full Stack Web Developer

PROFESSIONAL SUMMARY

Aspiring full-stack web developer proficient in Node.js, with a strong foundation in collaborative project work. Excels in harnessing Generative AI and rapidly acquiring new tech stacks. A dedicated and adaptable team player ready to contribute technical expertise and creativity to dynamic development projects.

PROJECTS

1. Foto Flick | |

Node.js | HTML | JavaScript | CSS | Express.js | MongoDB

- Developed a platform for appointment bookings across social media platforms and websites, enhancing customer engagement.
- Created login and signup interfaces with secure user data management using MongoDB.
- Implemented logic for appointment scheduling and email notifications.
- Made all pages responsive and ensured smooth navigation through dropdowns and sliding banners.

2. Type-Racer | |

Node.js | Socket.IO | HTML | JavaScript | CSS

- Developed an interactive web application called TypeRacer.
- Enabled users to create channels and enhance their typing skills through real-time typing races.
- Implemented user-friendly features including login, logout, and registration.
- Facilitated channel creation and real-time messaging using Socket.io.
- Ensured a responsive design for seamless use on various devices.

3. Code Converter | |

Node.js | JavaScript | HTML | CSS

- Developed and executed the "Code Converter" project independently within a single day, incorporating advanced Generative AI and rapidly acquiring a new tech stack.
- Engineered a versatile code conversion tool capable of translating code into various programming languages, along with integrated debugging and code quality assessment features.
